## **Sweepstakes Judge's Critique**

Jodi Alward

Prior to offering my critique, I would like to extend a special thank you to the show committee and my ring steward's who made my job both smooth and easy allowing me to thoroughly enjoy my assignment and your wonderful hounds.

I firstly would like to say, as many of you may already know, this breed is very dear to my heart. It was a great honour to be able to be part of this fabulous Specialty. I have the greatest respect for all those involved in both preserving and loving this breed. Specialty shows enable breed enthusiasts to come together to share knowledge and passion while bringing forward their best dogs to compete. I believe there was great depth of quality in all the classes. Well-done breeders! My hope with this assignment, was to allow both exhibitor and hound an opportunity to have a fun experience while I was able to offer my humble opinion on the day regarding how I saw each hound measuring up to our breed standard.

I have always approached judging by having a picture in my mind of the idea dog that I am trying to find. This picture is a composite of hounds' that have captured my eye from the past and present and have informed my interpretation of breed standard. With this being said, I offer the following impression of the dogs I judged.
